**and what
have you**
by BOB CRAIG

Restrain your smiles at the rosy tidings from Washington that the federal deficit in the fiscal year just ended was only 6.3 billion dollars, which is 700 million dollars less than the most recent forecast. The \$3.80 saving per American isn't to be sneezed at, but this is the kind of "good news" that is 10 per cent good—90 per cent bad.

The first forecast on the national budget was a surplus of \$1,500,000,000 during the fiscal year. President Eisenhower ventured that guess in January of 1961, before he suspected how far out the New Frontier spending would go.

President Kennedy, in March of that same year, speculated that fiscal '62 would end with a \$2,200,000,000 deficit.

Three more estimates finally led to the 7-billion-dollar figure. So, who's happy that we are now only 6.3 billion in the hole?

That, you should not forget, is the second-largest red blot on our fiscal record during peacetime. Only Mr. Eisenhower's fiscal '59, with its 12.4 billion deficit, was larger.

Washington last year sloughed into its expanding activities more revenue (\$1.4 billion dollars) than ever before in this nation's lifetime.

It poured out more dollars than have ever been spent before, except during the last two years of World War II when our all-out effort for war reached a peak. Fiscal '62 spending of \$77.7 billions is a round figure of \$474 out of your personal pocketbook—and the pockets of all other Americans who are supporting their government. (And a lot of us are paying more than this to make up for those supported in whole, or part, by welfare.)

To complete the picture there have been 25 deficits in the past 31 years, and the national debt has rocketed from \$11 to 300 billions. This does not include other fiscal obligations which make the best guess of our All-American obligations some 1.4 trillion dollars. Still worse is the dangerous shift in spending from local and state sources to distant Washington. In 1930, state and local governments spent 8 billion dollars, the federal government only 3 billions. Now, total local, state and federal expenditures approach 150 billions—and Washington's overall spending is two thirds of the total. In other words, local and state governments have multiplied their expenditures 7 times—but federal multiplication has been more than 30 times.

Since 1914, when a few Americans began paying income taxes, the nation's population has increased 80 per cent—the number of tax returns has risen 17,000 per cent.

The answer? Impress your representatives in Washington with language strong enough to end these deficits and to return the money, and the power to collect and spend, to the people and to local and state governments which they can control more closely than the sprawling octopus on the Potomac.

**BOLL WEEVIL INFESTATION
REPORTED HEAVY IN AREA**

A survey of the cotton fields made Tuesday around Hamlin revealed a heavy boll weevil infestation in all the fields.

J. C. Hayes, Farmers Home Administration Supervisor for Jones County, in making a check on the condition of the area cotton, said that he did not find a single field which was not infested.

The boll weevil eggs are found about four inches from the top of the stalk. They hatch out in three to four days and the weevils move into the boll.

The hot, humid weather has aided in the heavy infestation. Hayes said that there are more boll weevil eggs now than ever before.

Farmers in the area should begin now to take precautionary measures in as much as the eggs now on the plants will be hatching by the end of the week.

Dear editor:

Since I don't even know very much about what's going on in Hamlin, I'm in no position to know what's going on in that providence up in Canada where the doctors struck, but the thought has occurred to me that a strike by doctors opens up a vast and baffling new field.

You stop by a barber shop and find the door closed with a sign on it: On Strike Against Safety Razors and the Home Use of Hair Clippers.

On a lawyer's door you find a sign reading just: On strike, a lawyer will never be very clear anyway, sometimes he's not sure himself.

I don't know how far this far-fetched thing could go, but I know where it would stop. It would stop with farmers.

Farmers aren't likely to go on strike, for a simple reason. They have built up such a huge surplus that it would run a couple of years, farmers would have to strike for three years at least to make the pinch felt, and they aren't in financial shape to do it. This is just another edge the doctors, movie queens, labor bosses, etc. have over farmers.

By the way, the newspapers aren't planning on striking, are they? I need to know, as there's no sense me writing you if you are going to shut down in protest against something.

If you take your truck for granted

...it's a good one!

A truck that doesn't call for a lot of attention, that just does its job every day, is a great asset. This is the thing most users tell us they like about Chevrolet trucks—their reliability. And this, of course, comes from quality. Sound engines, strong frames, double-wall construction, insulated cabs, separated bodies and cabs, tight tailgates... are some of the features that help Chevrolet trucks work longer and bring back more of your investment at trade-in.

If you wish you had a truck that cost you less thought and attention, put your money on quality. Make your next buy a dependable Chevrolet truck.

Some spotted showers fell around last week but not enough to be of any benefit, although cotton is still looking real good. The weather has continued to be very hot after a break of a few days.

Most of the farmers are setting their crops under control and are beginning to look forward to laying by soon. This has been another hard year on farmers as they had to plant so many times, but it is beginning to look like a good crop, so it gives them hope again.

Attendance fell way down Sunday morning at church, but was back up again Sunday night. Mr. and Mrs. Jimmy Holmes were visitors Sunday night.

Last Wednesday night services were well attended with several visitors. Mr. and Mrs. Smotherman and children, Alamogordo, New Mexico and another daughter, husband and baby, whose name we failed to get, came with their mother, Mrs. Jack Harkey of Tye. Mrs. Harkey is a neighbor of the pastor's family at Tye.

Mr. and Mrs. Monroe Tabb and children, of Hamlin, were also visitors. We urge you again if you like gospel singing, come to our mid week service if you are not in your church at that time.

This coming Wednesday night the Family night will be held in conjunction with the prayer services, since the Revival is in progress at Hanna and Corinth churches and some members will be attending there. The Family Night will consist of a short program and refreshments will be served afterward. It is our policy to invite any of our friends that would come be with us in these services, to be there, as it is a community as well as a church social.

The men met last Wednesday morning and hoed Roy Smith's cotton. This coming Thursday morning they will meet and plow it again. Mr.

Smith is doing well after being in the hospital since the tornado, we did not learn if he left the hospital or not, but he is scheduled to leave as soon as he can handle his crutches enough to walk.

Mr. and Mrs. Henry Kee, of Lubbock, were trying out a new car by visiting with her brother, Mr. and Mrs. Elmer Joiner, over the week end.

Mr. and Mrs. Fred Rosenbaum went to Pampa this weekend, to visit with their son, Mr. and Mrs. Joe Ray Rosenbaum.

Visiting with the Jack Wrights for lunch Sunday were Rev. and Mrs. Derrel Lewis and children and her parents, Mr. and Mrs. Flavil Holmes. Sunday afternoon visitors were Mr. and Mrs. Winson Gray and Mr. and Mrs. Jimmy Holmes.

We are sorry to learn that Mrs. Henry's sister, Mrs. Jim Norman, of Rule, is back in the Haskell Hospital very ill, and her husband is in the same hospital seriously ill also.

Linda Goodwin celebrated her thirteenth birthday last Tuesday, July 17, with a swimming party and picnic at the park in Anson. Those attending were Lynn Brannon, Margaret Johnson, Jean Young and Suzanne Wicker. Other guests besides the honoree were her mother, Mrs. Goodwin, Mrs. Jack Wicker, and Tena.

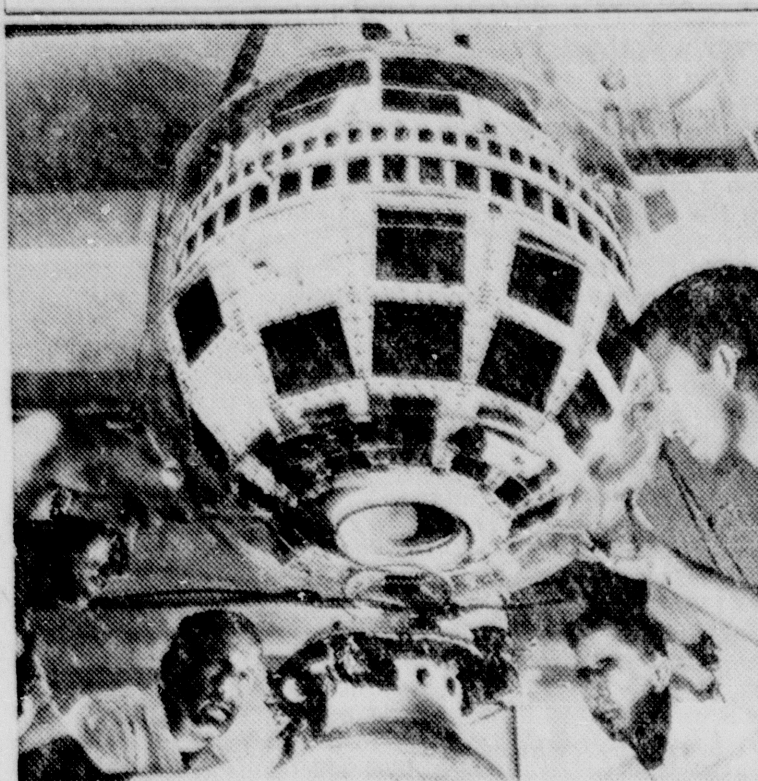

Mr. and Mrs. Elmer Joiner and Mr. and Mrs. Henry Kee visited in Stamford Sunday afternoon with Mr. and Mrs. Arthur Rutherford and Mr. and Mrs. Jimmy Joiner and children. Ronald Joiner came home with his grandparents to spend a few days.

Mr. and Mrs. Woodrow Goodwin and Linda, visited with the Drake family Sunday afternoon.

Jerry Joiner, of Odessa, is visiting with relatives here for awhile.

Ask Amy

BY AMY ADAMS

THE MALE OF THE SPECIES CHIRPS

Amy: I answer to the letter you sent me about the "Strap Hanger" may be that at seven o'clock in the morning, Chivalry isn't sleeping. It is napping at five in the morning. Chivalry has been a long, long time, and men are partly responsible for the demise of Chivalry. Remember as a boy that men did tip their hats, open doors, give up seats to any woman, and so on. Today, if a man gets up a seat, he is a rare bird. If he tips his hat, he is a rare bird. In fact, if a man acts like a second honeymoon to give you both a new outlook on life.

Perplexed
Dear Perplexed:
It's never too late! These are the best years of your lives. Your wife will act as young as you make her feel. There's nothing like a second honeymoon to give you both a new outlook on life.

Dear Amy:
Can you tell me if dreams mean anything? I have very frightening dreams lately. I wake up in the morning very upset over them. They leave me feeling cranky and I take my feelings out on my children. I have never discussed this with anyone. I was wondering if you would know the reason for these disturbing nightmares.

Mr. A. F.
Dear Mr. A. F.:
Constant bad dreams stem from an emotional disturbance. Discuss this with your doctor.

Dear Amy:
I have been friendly with a certain neighbor for six years. During that time, we grew to know each other fairly well. We enjoyed barbeques, Sunday drives, and outings at the shore. Quite suddenly, they have stopped speaking to me other than a quick "Hello" if we happen to meet outside. I don't know of anything I said or did to offend them. This is puzzling me and I can't figure out the answer.

Neighborless
Dear Neighborless:
The only way to get answers is to ask questions. Why don't you just ask your neighbors what seems to be the trouble. If there is anything on their mind, I'm sure they would want to tell you.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

AUSTIN — U. S. Supreme Court's decision that federal courts have the power to review acts of state legislatures in reapportionment representation was met with an uproar from many states.

"Reapportionment" is the business of redistricting a state to determine the number of legislators according to an area's population. National and state constitutions both provide for re-examination of representation in legislative assemblies every 10 years.

An area frequently gains or loses representatives to the state house. This happened in Texas recently, when a 1961 redistricting act by the legislature took effect.

Working under a constitutional amendment adopted in 1936, limiting cities to one representative for every 700,000 inhabitants, Texas' representative districts got a pretty thorough going over.

The 31-member senate body was not greatly effected by the reapportionment, however, since the law states that the senate shall never be increased and to single county shall be entitled to more than one senator.

What the U. S. Supreme Court would hold about such a condition, in view of a congressional provision for two U. S. senators from each state regardless of population, won't be known unless the question is put to its nine justices.

There is some reason to believe, however, that the higher court would look with disfavor on this State's constitutional provision limiting House representation to one member for every 100,000 inhabitants after county attains a population more than 700,000.

In the event citizens dissatisfied with the situation in Texas ever go to court for a shuffling, they'll be armed with the information that 11 urban counties have a little more than half of Texas' 9,967,777 inhabitants and more than a third of the 150 members of the House of Representatives.

HOPE FOR TRAPPED FISH—An "escape route" for thousands of fish which risk death daily in a shallow pool off Padre Island is planned by the State Game and Fish Commission, which estimates that tons of game fish have died in a nine-mile hole north of Port Mansfield over the last 10 years.

Howard Lee, the commission's director of field operations, said red fish and trout swim into the shallow pool in the course of the north-to-south migration, "and don't recognize the fact that there's only one way out."

As the temperature increases in late spring and summer, the water level drops. Fish then are caught in a dry water pool created by drifting sands and are trapped there until death releases them as food for birds and other scavengers in the area.

Dredging of a six-foot deep, 50-foot-wide channel running 4,000 feet through Laguna Madre into the Intracoastal Canal is expected to put a stop to the waste of fish and make them available for "harvest"—a Game and Fish Commission euphemism for fishing.

Up to now, fishermen have been unable to get to them in the pool trap without trudging through long distances of mud and sand.

PERMIAN BASIN COLLEGE URGED—A "Citizens Relations Committee" of 20 West Texans flew into Austin to ask the Texas Commission on Higher Education to approve plans for converting Odessa Junior College to a state-supported four year "Permian State College."

According to their spokesman, W. D. Fleck of Odessa, 30 per cent of the Ector County's college enrollment of about 1,600 is composed of out-of-county students. Administrators estimated a 3,686 enrollment by 1970, if it's changed to a state-supported senior college.

C. A. Roberson, business manager of Odessa's \$3,000,000 junior college, said the population in the Permian Basin increased from 159,000 to 228,000 between 1950 and 1960 and is expected to reach 500,000 by 1970.

Commission will study the matter further before making a recommendation to the next legislature.

Attempts to get the 57th Legislature to approve full state support and senior college status of San Angelo Junior College, Laredo Junior College and Pan American College at Edinburg failed in the third special session.

T. E. C. TEAMS TO AID SMALL TOWNS—Two teams which form the working force of the Texas Employment Commission's newly-organized Expansion Employment Service for the Small Communities recently moved into Brady where they'll survey job seekers and job opportunities for the next weeks.

Limestone and Falls county officials already have asked for the teams' services. Clifford reported that some 25 or 30 counties now are in the "substantial and persistent unemployment" category.

Service was set up with funds from the Federal Bureau of Employment Security to assist communities like Brady which have "substantial and persistent unemployment problems," yet are too far from one of the Employment Commission's 91 local offices to get help from a regular staff.

According to Ted Clifford of the commission, the teams will go into economically-distressed areas to try to determine what has caused a long-time employment slump, offer remedies and either find job opportunities elsewhere or assist local civic groups in launching industry recruitment programs.

Officials also revealed that the deviation survey is being extended to a single well in the Webster Field in Harris County. Operators have been asked to give permission for the survey under a new policy which allows the operator to volunteer permission before a court order is sought.

Chairman William J. Murray of the Commission says that the order covers 62 leases.

Attorney General Will Wilson advises that when a deviated well is found on a lease, the whole lease is to be questioned until proven otherwise.

Before the wells involved can be restored to production, operators must have inclination surveys made on each one and must have production tests to determine each well's actuality to produce. Wilson said production tests were required because of the possibility that a single deviated well might be drawing the allowables for eight or 10 wells on a lease that are actually dead.

Gov. Price Daniel reappointed Joseph B. Hutchison of Arlington and Lloyd Gregory to the Battleship Texas Commission and named Mrs. Murray Ezzel of Port Neches and C. H. Coffield of Houston new members. Also he appointed Weldon Cabaniss of Rockport to the

zero allowables for all wells on leases in the East Texas Field on which deviation or inclination surveys have shown a crooked-hole oil well.

Land Commissioner Jerry Sadler says the waiting list in the Texas Veterans' Land Program has been reduced to less than 16,000. He figured his office would pass No. 94,000 this week, so any veteran applicant can estimate when his number will come up, since 1,000 contract forms are sent out each week.

Gulf States Marine Fisheries Commission.

Eleven Texas firms were among the 42 recently granted permission to issue \$22,050,375 in stocks by the State Securities Board.

A report by State Auditor C. C. Cavness showed that the Texas Surplus Property Agency, which disburses federal surplus property to schools, colleges and other public agencies, had an income of \$608,606 during fiscal 1961, while cost of operations was \$692,798.

TELEPHONE TALK

by Roy Eury, Manager

Next week, a Yellow Pages representative—an important member of our telephone team—will be in town to call on businessmen and to discuss the many benefits of Yellow Pages advertising. Since I can't get around to introduce him to each of you personally, I thought you might appreciate "meeting" him in this column.

Mr. Page represents many years of Yellow Pages advertising knowledge and experience. He has specific information—facts and figures about the growth of businesses and changing economic conditions in Hamlin. These facts and figures can help businessmen make the most of their Yellow Pages advertising program.

EASY WAY TO SHOP

You know, national surveys show that 9 out of 10 people turn to the Yellow Pages when they're ready to buy. This is not hard to understand when you consider that the Yellow Pages are in virtually every home and place of business—available night and day, 365 days a year.

People just naturally reach for the Yellow Pages to find what they want and where to buy it. In this way the Yellow Pages save them time and energy. Shopping the Yellow Pages is the easy way to shop.

MR. BUSINESSMAN

Ask yourself these questions:

Can your customers and prospects find you when they reach for the Yellow Pages?

Can you afford not to be represented under each product, service, or brand name item you sell?

Can you think of a better place to advertise to reach people who are ready to buy?

Talk it over with Mr. Page when he calls on you. He'll help you work out a program that fits your business needs.

Call by number. It's twice as fast.

Stamford Men Named to Handle Cox Campaign
James F. West and Grover Carruthers of Stamford have accepted the campaign co-chairmanship for Jack Cox in Jones County.

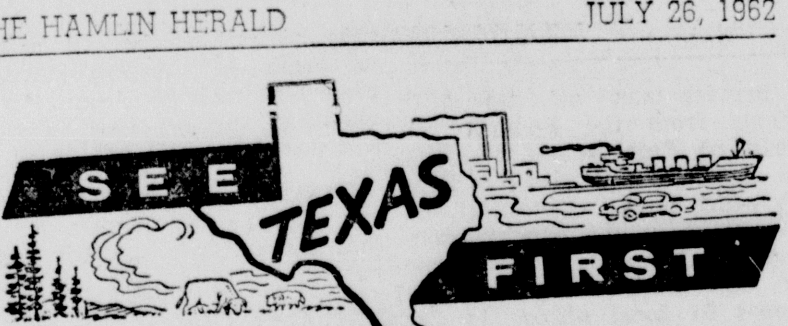

Announcement of their appointment was made by Hal Sayles of Abilene, campaign chairman for the 24th Senatorial District.

Cox, a Breckenridge drilling contractor and native West Texan, won the Republican nomination for the governorship by landslide in the May primary. He faces Democrat John Connally in the November general election.

Cox gained valuable experience in the working of state government through three terms in the Texas legislature, being elected in 1946, 1948, and 1950. He served on 12 different committees during his six years in office, including such important committees as Oil, Gas and Mining; Revenue and Taxation; and Appropriations, where he served as vice chairman.

In 1956, Cox and his partner established Pico Drilling Company, of which he is vice president.

In his first statewide bid for political office Cox polled more than 600,000 votes for governor. In 1961, Cox stated publicly that he felt his conservative principles were no longer welcome in the Democratic Party, and offered himself service to the people of Texas through the Republican Party.

Another Big-D Spectacular
Few tourists notice a town's municipal auditorium. Not so in Dallas, Texas.

Dallas' new and truly modern municipal auditorium is imposing enough to catch anybody's eye. It's where you can see it, and use it, too.

Rather than heading to the suburbs with their public facility expansions "Big-D" built its \$8,000,000 circular spectacular within walking distance of the famed downtown Dallas shopping district.

The Dallas auditorium is spanned by a domed roof 300 feet in diameter. Main auditorium seats some 10,000 persons. Attached lyceum, or little theatre, seats another 1,750. There are 23 acres reserved for parking.

Austinite In Hall of Fame
A long-time Austin, Texas, resident is honored by being pictured in the Hall of Fame in Washington, D. C.

Hall of Fame of Forestry, that is, for this resident is the renowned Treaty Oak.

Standing near the bank of the Colorado River's new Town Lake, the age of this majestic live oak has been estimated at between five and six hundred years.

Its branches spread 127 feet.

Austin A Town of Museums
Man progresses by looking forward but man learns by looking back.

With this in mind, Texas' centrally located capital city, Austin, is definitely a leader in education.

Not just for the famed Universities and colleges though. It is an educational leader through its wealth of museums full of history and artifacts of times past.

On the capitol grounds themselves are the museums of the Daughters of the Confederacy and the Daughters of the Republic. Both these museums have old guns, flags, and items used by the early settlers.

A museum made from the picturesque studio of Elisabet Ney, the world's renowned sculptress, contains many of the artist's mementoes.

The atmosphere and surroundings of a short story genius are preserved at the O. Henry Museum. Here is found, in unique preservation, the

dictionary the famed author memorized.
Last, but not least, the story of Texas, from fossil to wild west to oil wells is told through fascinating displays at the famous Texas Memorial Museum.

Mr. and Mrs. Jack Holt and Linda are visiting Mr. and Mrs. Joe Holt, Mrs. B. E. Mixon and other relatives. They have recently moved from Wilmington, California to Lomita, Calif.

The hundreds of thousands of Texas people served by rural electric cooperatives know they are in good hands. Dependable, efficient electric service is the result of more than a quarter century of experience by these locally owned electric systems, built for the people by the people they serve. The power lines that span the remote areas of the state are a standing tribute to the dedicated people who built these electric systems and who now own, operate and control them locally. These people, your rural neighbors, are furnishing a dependable electric service today while building a brighter tomorrow.

OLD GLORY ...

Vernon Leverett Jr., 18, son of Mr. and Mrs. V. R. Leverett of Old Glory, was treated and released at Hendrick Memorial Hospital in Abilene last Friday afternoon after he shot himself accidentally in the left arm while trying to kill a snake in the yard with a .22 caliber rifle.

He told police the rattler crawled under the air-conditioning unit on the side of his home in Abilene. He leaned his rifle against the house to locate the snake. When he spotted the snake, he reached up for the rifle and in doing so discharged it accidentally.

Mrs. Katie Gerloff had as of July 4, weekend visitors, her sons Raymond Gerloff of Stamford, Hill Stanford and Roy Wienke of Lubbock. The group enjoyed a fish fry in the W. G. Wienke's back yard.

At the brief business meeting, plans were changed in regard to the annual picnic, and it was held Friday, July 13, on the school yard. It was scheduled to be held in the Haskell Park. A basket supper was spread and enjoyed by about 25.

The next club meeting will be held Tuesday, July 24, at 2:30 p.m. at the home of Mrs. V. R. Leverett.

The threatening weather over the weekend came through with a few small showers to dampen the parched fields in this area.

Judy Pritchard is visiting her brother's family, the Thom-

as Pritchards, who have been visiting Mrs. Pritchard's parents, Mr. and Mrs. Floyd High in Abilene.

4-H:

The County officers: Sharon Leverett, chairman, Charles Diers, co-vice chairman, Billie Vahlenkamp, co-vice chairman and Brenda Dalby, sec-treas., along with others from the county met in the courthouse to plan county camp.

The camp will be held August 2 and 3.

The Old Glory Girls' 4-H Club held their annual swimming party at Stamford on July 17. The families of the 4-H girls were invited along with our special guests, the E. H. Diers family. The Club honored Mr. Diers with a white shirt and a tie in appreciation

for him driving them through three parades and used his pickup. In the presentation of the gift to Mr. Diers, mention was made of many others who had contributed generously of their time and effort in club activities through the past few years.

Many enjoyed a swim at the Stamford pool and later some thirty-three members, leaders, parents, and guests enjoyed a picnic in the park featuring sandwiches, potato chips, tea, cookies, and homemade ice cream. The members that attended were: Sharon Leverett, Billie Vahlenkamp, Nancy Vahlenkamp, Rita and Suzy Baldrée, Donna Pierce, Carolyn and Judy Sander, Judy White, Dona and Patty Bradshaw.

Representing the Hamlin and Abilene Jaycees in their State Tennis Tournament at Wichita Falls this past week was Stephanie Letz for Abilene and Beverly Garner, Linda Newman, Francell Boles, Shar-

on Leverett, and Helen Lowack.

Eligible People Not Receiving Social Security

About a million workers over 65 do not realize that they are eligible to receive social security benefits, according to Mrs. Fay Ford, social security field representative for this county. These are mainly people who are still working and who think that they cannot get any benefits because they are

making over \$1,200 a year. If the same ratio is true for this county as for the country, about 125 of that million live near here.

Are you one of these people? If so, you may be losing money. To illustrate, Mrs. Ford cited a claim recently filed by a man who has averaged \$1,800 in annual income since 1950. This computes to about \$73.00 a month in social security payments. However, because he continued to work in his regular job after his 65th birthday, he thought he could not receive any payments. Actually, this man will get a total of \$526 in social security checks in 1962, even though he earns \$1,800 in wages.

If you are over 65, it is important that you inquire about

this now. No payments can be made to you unless you apply for them. Delay may cost you money because no claim for social security can go back more than one year, even though earlier eligibility exists.

Write for leaflet 23c from the Social Security Office in Abilene. This leaflet contains a chart which shows how your earnings affect the amount of your payments. By simply getting in touch with Mrs. Ford on her next trip to Hamlin on August 14 at the Fire Station, you may find an added source of income which you have earned through your work under social security. Even if just age 62, your earnings level might be in the range that would permit some payments to you.

"The kitchen is a country in which there are always discoveries to be made," said a famous French chef. And, bride or matron, you've probably found that out!

Want to dress up that whipped cream pie? Run your potato purer over a chocolate bar (almonds and all!) and make fancy chocolate curls over the whipped cream topping.

Freezing? Line casserole dishes first with aluminum foil. Be sure there's enough to fold over the top. Once frozen, the wrapped food can be lifted out of casserole, freezing it in other dishes. Put foil-wrapped food back in casserole for reheating. (Just a nickel a day keeps a freezer full of food!)

Steaks freeze very well. Freeze roast poultry unstuffed because of the danger of bacteria. Freeze pastries or meat or chicken pies unbaked. Undercook vegetables when adding to steaks and casseroles so when reheated they won't have that warmed-over taste.

To press dark garments, put a black cloth over your ironing board. This prevents dark material from picking up white lint, saves brushing later.

Just count the ways you use electric service every day. On the job around the clock, around the calendar—can you think of anything else that does so much yet costs so little?

Here's another use for the spray attachment on your vacuum cleaner: use it to apply liquid wax to linoleum or asphalt tile.

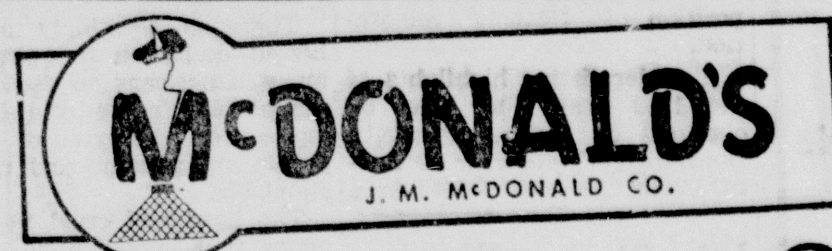

Your sewing machine needle won't stick when sewing plastic materials if you sew a strip of waxed paper into the seam. When finished, tear off paper, seam will be perfect.

Something to think about! It has been estimated that in the course of his lifetime an individual eats 61,000 meals, more or less. And somebody had to plan, buy and cook 'em!

In the average American home electricity does in one day what it would take 228 hours to do by hand. Nothing else does so much for so little! And you'll never run out of electricity, because your electric company plans and builds to keep the supply years ahead of the need. Do you wonder why we say electric service is the biggest bargain in your family budget?

By CONG. OMAR BURLESON

WASHINGTON, D. C. —The Foreign Aid Bill passed by the house of Representatives last week authorizes \$4.6 billion. Two weeks before the Senate passed a similar Bill.

On the matter of furnishing aid to Communist dominated countries such as Poland and Yugoslavia, both the House and the Senate marched up the hill and down again.

The Senate first adopted an amendment which would cut off assistance to Communist nations, and then followed it with another amendment excepting agricultural products. The House of Representatives first said that no assistance of any sort or kind should be given to the Communist nations, each country being spelled out by name. It then followed this action with a provision permitting the President to grant such aid to any nation if he found it to be in the "vital interest of the United States."

The two versions of the measure will now be brought together in a Conference between the House and the Senate. As finally passed, doubtless authority will remain to grant assistance to any nation in the world regardless of the nature of their government. Conceivably, this could even apply to Red China.

There is seemingly an inherent desire on the part of many Americans to feed hungry people. The desire and willingness on the part of these people are genuine and understandable.

The hard and cruel fact remains that only a hungry and a distressed people have ever risen up against tyrannical rulers.

In 1921 Mr. Hubert Hoover headed the American Relief Organization which probably saved the Soviet Union. It is more correct to say that it saved the Russian Revolution started in 1917.

The American Relief Organization received credit for saving millions of Russian lives. Just prior to this assistance, the structure of Soviet Communism was falling apart under the strain of hunger when Mr. Hoover's Organization stepped in.

Between 1929 and 1939 it was estimated that Joseph Stalin massacred 17 million persons. Countless other millions died in Soviet labor camps. These same millions were those saved by American food.

A logical conclusion of all this was pointed out in a current column by Joseph Alsop. It is to the effect that, had it not been for American relief, Poland, Hungary, Czechoslovakia and the rest of Eastern Europe would not now be in

in 1921. Millions of lives were saved in Russia. The generosity of America was proved. But Communism was saved with all its evil results. The number of lives saved in this gigantic effort would weigh lightly in the balance against lives afterwards lost, warped or enslaved because of the Communist system.

It is not a matter of meeting evil with evil. This is not the Christian way. Neither is it Christian to contribute to the perpetuation of evil. It takes the Communists to disprove the ancient proverb of "Whose bread I eat, his song I must sing."

"Oh, God! that bread should be so dear,
"And flesh and blood so cheap!" (Thomas Hood, 1846)

What you don't know about driving a car could kill you.

To Attend Convention

Delegates from the Abilene congregation of Jehovah's Witnesses leave this week for San Angelo for the July 27-29 convention at the San Angelo Coliseum.

For weeks the host San Angelo congregation of Jehovah's Witnesses has been canvassing the city for rooming accommodations in private homes as well as commercial establishments.

"San Angelo hotel and motel owners report that all available facilities have been assigned," Richard LeBrenz, presiding minister of the Abilene congregation explained, adding "but most of our delegates have been arranged far in advance for their rooms so we're looking forward to three days of enjoyable Bible instruction." The San Angelo meet will attract from a 12 state area

'EXPOSITION OF NATIONS' TO BE STATE FAIR THEME

Big Tex, the gigantic cowboy who symbolizes the biggest State Fair of them all, will "welcome the world to Dallas" in October. "Exposition of Nations" will be the theme of the 1962 State Fair of Texas October 6 through 21 in Dallas. Now in its 77th year, the Fair is the nation's largest annual exposition in terms of attendance. The "Exposition of Nations" theme, which will be carried out in exhibits and activities,

will emphasize the international flavor and world renown of the State Fair. Foreign exhibits will be featured at the 1962 exposition in the Texas International Trade Fair. A nightly special event will be the "Torchlight Parade of Nations" around the fairgrounds. The torchlight parade will be elaborated with marching bands, beauty queens, gaily decorated circus animals and illuminated floats, including one for each foreign nation exhibiting at the Fair.

The international theme will be carried out in music and pageantry in the Fair's major special events—the Texas Music Festival, Dallas Symphony Spectacular, Circus Night and East Texas on Parade.

For Fair-time the Dallas Museum of Fine Arts has scheduled one of the most important exhibits in its history. This will be "Arts of Man," a survey of the entire art history of the world.

Decorations at the main gates to State Fair Park and throughout the fairgrounds will mirror the "Exposition of Nations" theme, as will downtown Dallas decorations at Fair-time.

As the oldest of the State Fair's international features, the tenth annual Pan-American Livestock Exposition will be an integral part of the "Exposition of Nations" celebration.

A folder listing highlights of the 1962 State Fair may be obtained by writing Publicity Department State Fair of Texas, Dallas 26.

July 31 Deadline For SS Reports

Families that employ household workers such as maids, cooks, gardeners, and baby sitters were reminded today that July 31 is the deadline for filing quarterly reports with the District Director of Internal Revenue.

According to R. R. Tuley Jr., district social security manager, the earnings of household employees who received total cash wages of \$50 or more in April through June must be reported.

Tuley said the local social security office, 203 Fannin St., Abilene, Texas, has leaflets explaining how social security covers household workers and how their earnings should be reported.
